TINKER AIR FORCE BASE HISTORY

Tinker Air Force Base was named in honor of Maj. Gen. Clarence L. Tinker of Pawhuska, Okla. General Tinker lost his life while leading a flight of LB-30 "Liberators" on a long-range strike against Japanese forces on Wake Island during the early months of World War II.

Tinker AFB's history began in 1940 when a group of Oklahoma City civic leaders and businessmen learned that the War Department was considering the central United States as a location for a maintenance and supply depot. On April 8, 1941, the order was officially signed awarding the depot to Oklahoma City.

During World War II, Tinker's industrial plant repaired B-24 and B-17 bombers and fitted B-29s for combat.

Major Gen. Clarence L. Tinker

Throughout the Korean conflict, Tinker continued its output -- keeping planes flying and funneling supplies to the Far East.

The base also played an important role in the Berlin and the Cuban crises. During the Vietnam War, Tinker provided logistics and communications support to Air Force units in Southeast Asia.

Tinker and Oklahoma City Air Logistics Center began the decade of the 1990s providing front-line support to the forces engaged in Operation DESERT SHIELD and DESERT STORM.

In 1999, Tinker was awarded the largest engine repair contract in the history of the Air Force valued at \$10.2 billion over 15 years.

TINKER AIR FORCE BASE MISSION

In late 2011, the Air Force announced an initiative to restructure Air Force Materiel Command from its current 12-center configuration to a new five-center structure. Under this reorganization Tinker AFB became the host site for the Air Force Sustainment Center. The mission of the **Air Force Sustainment Center** is to sustain weapon system readiness to “Generate Airpower for America.” The center provides war-winning expeditionary capabilities to the warfighter through world-class depot maintenance, supply chain management and installation support. It consolidates oversight of the maintenance missions now performed at the Oklahoma City Air Logistics Complex; Warner Robins ALC at Robins AFB; and Ogden ALC at Hill AFB. It also assumes responsibility for supply chain management and operations wings here and at Scott AFB, and an operating location at Langley AFB. The AFSC is commanded by a three-star general and consists of more than 32,000 military and civilian personnel. The AFSC provides installation support to more than 141 associate units with more than 75,000 personnel.

Tinker's largest organization is the **Oklahoma City Air Logistics Complex**. It is the largest of three depot repair complexes in AFMC. It provides depot maintenance on the C/KC-135, B-1B, B-52 and E-3 aircraft, expanded phase maintenance on the Navy E-6 aircraft, and maintenance, repair and overhaul of F100, F101, F108, F110, F117, F118, F119, F135 and TF33 engines for the Air Force, Air Force Reserve, Air National Guard, Navy and foreign military sales. Additionally, the complex is responsible for the maintenance, repair and overhaul of a myriad of Air Force and Navy airborne accessory components, and the development and sustainment of a diverse portfolio of operational flight programs, test program sets, automatic test equipment and industrial automation software.

More than 9,000 military and civilian employees work at the OC-ALC. The complex is headquartered out of historic Bldg. 3001, which covers 62 acres and stretches for seven-tenths of a mile. There are 98 different job skills, 63 buildings, 8.2 million feet of industrial space and within its walls, workers perform a vast array of maintenance on aircraft, engines, components and accessories and perform a multitude of administrative tasks.

The **72nd Air Base Wing** provides base installation and support services for the Air Force Sustainment Center headquarters, the Oklahoma City Air Logistics Complex and 44 associate units assigned to six major commands, including the largest flying wing in Air Combat Command, the Navy's Strategic Communications Wing One and several Department of Defense agencies. More than 1,600 personnel and 1,343 contractors work within the 72nd Air Base Wing. The groups, directorates and direct reporting units within the wing include the 72nd Mission Support Group, 72nd Medical Group, 72nd Communications Directorate, 72nd

Civil Engineering Directorate, 72nd Operations Support Squadron, 72nd Comptroller Squadron, Public Affairs, Chaplain and Plans Offices.

Today, with more than 26,000 military and civilian employees, Tinker is the largest single-site employer in Oklahoma. The installation has an annual statewide economic impact of \$3.51 billion, creating an estimated 33,000 secondary jobs. Tinker owns 5,424 acres, leases 810 acres and has 642 acres of easements. The total number of buildings, including Bldg. 9001, is 467.

Not only is total support of America's defense systems a priority, but protecting and enhancing the environment is a top concern as well. Through the use of aggressive and innovative technologies, Tinker has become a national leader in pollution

prevention, earning multiple Department of Defense awards for environmental stewardship.

The 448th Supply Chain Management Wing provides enterprise-wide sourcing and execution for depot line repairable and consumables materiel, maintenance and distribution, aircraft structural and intercontinental ballistic missile electronics/communication commodities management and engineering. Additionally, the 448th is one of two "virtual wings" in the U.S. Air Force. Furthermore, the wing manages the 848th and 948th Supply Chain Management Groups at Tinker AFB, with elements of the 948th SCMG at Wright-Patterson AFB, Ohio, Robins AFB, Ga., and Hill AFB, Utah. The wing remotely manages two groups: the 638th SCMG at Robins AFB and the 748th SCMG at Hill AFB, Utah.

Tinker is also home to six major Department of Defense, Air Force and Navy activities with critical national defense missions.

The 552nd Air Control Wing flies the E-3 Sentry aircraft and is part of the Air Force's Air Combat Command mobile strike force. The E-3's radar and other sensors provide deep-look surveillance, warning, interception control and airborne battle management. The 552nd Air Control Wing is responsible to the commander of Air Combat Command for the operations, maintenance, logistics, training, and combat support of E-3 Airborne Warning and Control System and Control and Reporting Centers. The wing provides combat-ready theater battle management forces and mobile command control, and communications radar element at the direction of the Chairman of the

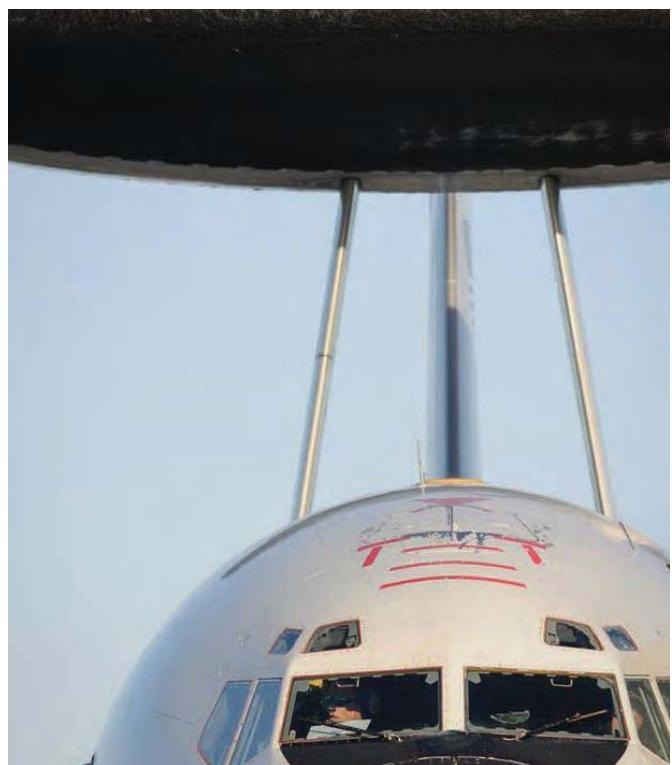

Joint Chiefs of Staff. It deploys, operates and supports these forces worldwide ensuring combat capability for all peacetime and contingency operations.

Serving alongside the 552nd are the 400 Reservists assigned to the **513th Air Control Group**, the Air Force Reserve Command's only Airborne Warning and Control Systems organization.

The Navy's Strategic Communications Wing One provides a vital, secure communications link to the submerged fleet of ballistic missile submarines. Strategic Communications Wing One is also Task Force 124. SCW-1 is an administrative command, responsible to Commander Naval Air Forces for manning, training and equipping the Navy squadrons responsible for Nuclear Command and Control Communications to the nation's nuclear triad. TF 124 is an operational command, responsible to Commander U.S. Strategic Command, to provide the airborne platform and aircrew for the U.S. Strategic Command Airborne Command Post, the Airborne Launch Control System and the TACAMO EAM Relay missions. SCW-1/TF 124 has direct responsibility over Fleet Air Reconnaissance Squadron Three, Fleet Air Reconnaissance Squadron Four, Fleet Air Reconnaissance Squadron Seven, VQ-3 Detachment Travis AFB, Calif., SCW-1 Detachment Offutt AFB, Neb., and VQ-4 Detachment NAS Patuxent River, Md.

The 507th Air Refueling Wing is an Air Force Reserve flying unit. The 507th ARW is the largest Air Force Reserve Command flying unit in the state of Oklahoma. The 507th ARW reports to 4th Air Force and performs daily missions both locally and around the world in support of Air Mobility Command and U.S. Strategic Command's national emergency war order requirements. The 507th regularly supports overseas deployments in times of peace, war and national emergency as well as Federal Aviation Administration flight inspection requirements.

Today, the 507th ARW "Okies" consists of three subordinate groups, 11 squadrons and one flight, and employs approximately 1,120 men and women. The 507th ARW is made up of citizen Airmen and nearly all live and work in Oklahoma communities in addition to their reserve commitment in the unit. Approximately 200 members of the 507th are traditional civilian employees or dual status Air Reserve Technicians who serve as a full-time support cadre. The wing operates and maintains 12 KC-135R "Stratotanker" aircraft providing world-wide aerial refueling to U.S. Military and NATO aircraft. Additionally, members in the 1st Aviation Standards Flight located at Will Rogers World Airport in Oklahoma City operate the Bombardier 601/605

6

Challenger with the FAA. Reservists fly three to four missions daily and offload millions of pounds of fuel in support of operations worldwide.

The 507th ARW flies over 2,500 hours annually supporting national defense taskings. The wing is responsible for reserve C-17 and KC-135 flight training at a geographically separated unit, the 730th Air Mobility Training Squadron at Altus AFB, Okla. The 507th ARW also provides peacetime personnel and support functions for the 513th Air Control Group.

The 35th Combat Communication Squadron is an Air Force Reserve unit supported administratively by the 507th ARW but reports to the 960th Cyber Operations Group in Texas. The unit provides combat-ready expeditionary theater deployable communications during wartime and contingency operations in austere locations.

The 38th Cyberspace Engineering Installations Group establishes, extends and enables the cyberspace domain across every Air Force base worldwide through the planning, engineering and delivery of survivable, resilient infrastructure.

The Defense Distribution Depot Oklahoma provides the receipt, storage, issue, inspection and shipment of material, including material quality control, preservation and packaging, inventory, transportation functions and pickup and delivery services in support of OC-ALC and other Tinker-based organizations.

The Defense Information Security Agency Defense Enterprise Computing Center, Oklahoma City, is the local organization of the Defense Information Systems Agency. DISA operates computer systems for the base and serves 172 other bases in all 50 states plus 92 foreign countries

DIRECTORY INFORMATION

DIRECTORY INFORMATION

The Tinker Air Force Base Telephone Directory is printed by Public Affairs with information obtained from your organization's Telephone Control Officer.

The directory is now also available on the TAFB Web site. Please feel free to send comments or suggestions for improving our service to Public Affairs.

SERVICES

Establishing or Relocating Phone Service

Organizational Telephone Control Officers (TCOs) can assist you in your efforts to install, relocate, alter or terminate service. To obtain the identity of your organization's TCO, call 734-5582.

Repair Service

Contact 72ABW/SC at 734-3001.

Please have the following information available:

- Type of trouble (broken receiver, no dial tone, etc)
- Building number, post, room, location and phone number
- Name and extension number of initiator

Enhanced Services

Some enhanced services such as direct long distance dialing and call pick up groups are not authorized or available on all phones. Your TCO and instrument user guide can instruct you on individual access capabilities

Voice Mail 739-2465

If you have voice mail and need assistance, first contact your TCO. If this does not resolve your problem, call Telephone Help Desk at 734-3001.

PHONE SECURITY

Classified

Classified information should not be discussed or revealed over the administrative telephone system (AFI 33-111). Personnel who make disclosures of classified information during a conversation on a telephone are subject to disciplinary action.

Nuisance Calls and Bomb Threats

Malicious, threatening or abusive calls, including those where obscene or profane language is used, are prohibited. Calls of this nature should be reported immediately to Security Forces by calling 911. Correct procedures for handling a bomb threat (AF Form 440, Bomb Threat) should be posted near each telephone.

MINIMIZE Procedure

MINIMIZE is a condition imposed by a commander to reduce and control electrical and telephone traffic within the commander's area of authority during an emergency or exercise. MINIMIZE may be imposed DOD-wide, Air Force wide, Command-wide or on given countries, states, or areas as conditions warrant. All systems or any portion of the systems may be placed under MINIMIZE by the imposing authority.

Proper Phone Use

The entire Tinker AFB phone system is provided for official use only. Many new features and capabilities have been added and more will be added in the future. This will provide the user with a system which is easier to use and to increase the efficiency of conducting official business. All users should be aware that the type of calls, origination, and destination are monitored on a continuing basis, and some calls are recorded. If this monitoring shows misuse of the system, the information is provided to the abuser's management for appropriate action.

Moving Telephones and associated equipment

Please do not move telephones or associated equipment. This should be done by the Base Telephone Systems O&M contractor who is authorized and qualified to perform these moves. The moving of telephone equipment by unauthorized and unqualified personnel causes damage to the equipment.

Hearts Apart Morale Calls

Is a program that allows deployed member and family to communicate by allowing two 15 minute phone calls per week.

Hearts Apart Morale Calls

Dialing to Deployed Location

1. Dial 405-736-2426
2. Listen to recording and press 1 to make call
3. Press 1 again to allow number entry. Number dialed must first be preceded by entering 94, then dial the number, followed by the pound key (#). (94 xxx-xxxx #)

Deployed Call Facts

1. 15 mins per call. Time starts when ringing/busy tone is initiated. You should receive a 1-minute warning for automatic disconnection.
2. If you encounter problems, contact the Tinker AFB Airman & Family Readiness Center at 739-2747

Dialing From Deployed Location

1. Dial 312-336-2426
2. Listen to recording and press 1 to make call
3. Press 1 again to allow number entry. Number dialed must first be preceded by entering 94, then dial the number, followed by the pound key (#). (94 xxx-xxxx #)

Deployed Call Facts

1. 15 mins per call. Time starts when ringing/busy tone is initiated. You should receive a 1-minute warning for automatic disconnection.
2. Calls can only be to a local (405) area code, or a toll free number. If you encounter problems, contact the Tinker AFB Airman & Family Readiness Center at 739-2747

DSN FREQUENTLY CALLED NUMBERS

The following listing includes most Air Force activities and frequently called installations of the Army, Navy, Marine Corps, and other Department of Defense activities which may be reached via DSN. A master directory for other installations not listed is maintained in a current status by the base directory operator. Certain installations have direct-in-dialing. This means, if the desired extension number at the called destination is known, it may be dialed by preceding the extension number with the prefix given in the listing below. Prefixes for in-dialing are given followed by a letter for each digit required for the extension number. For example, the in-dial prefix for Langley AFB is 574 for DSN. It is shown below as 574-XXXX, indicating that a 4-digit extension is required. If the desired extension is not known, the calling party must obtain the number from operator at the called destination before placing the call.

SmartHours®

"We saved nearly \$500 last summer with SmartHours. And it doesn't cost anything to sign up."

GEOFFREY, STEPHANIE,
AINSLEY & ISABELLA
OG&E SmartHours Customers

Stephanie's family used to pay more for energy, until they joined the thousands of customers saving big bucks with OG&E's SmartHours. Last year over 99% of SmartHours customers saved money, with an average of nearly \$200. Some saved \$100 per month—that's \$400 of summertime savings.

How SmartHours works: From June 1 to September 30, reduce your electricity usage during peak hours, from 2-7 p.m. weekdays. Then take advantage of the other 19 off-peak hours each weekday, plus all weekends and national holidays. Shift a little, save a lot, it's easy and risk-free—and you're in control. But you have to join the program (shifting alone won't save you money), so learn more at oge.com, sign up at SmartHours.com, or call 877-898-3834.

A close-up photograph of a child's hands holding a large slice of yellow melon. The child has blonde hair and is wearing a red patterned dress. The background is blurred.

She doesn't know vitamin A from vitamin C. She just heard astronauts love it.

MOM WAS HERE

WHAT DOES YOUR CHILD LOVE TO DO?

Think hard. Because connecting her passion to nutrient-rich foods is one great way to encourage healthy eating habits in your child. It's just a little trick that determined, inventive moms across America are using to help raise healthy kids. See how you can inspire your child to eat right and exercise sixty minutes a day at letsmove.gov. The little things we do today can ensure a generation of healthy kids tomorrow.

GET IDEAS. GET INVOLVED. GET GOING.

Change is inevitable. Growth is optional.

JOHN C. MAXWELL

Tinker military and civilians have been growing their careers by partnering with the accelerated MBA program at Southern Nazarene University for over 30 years. Earn your MBA, MBA-Health Care, or MSM degree in less than two years. Attend class 100% online or just one-night-a-week on campus.

EMPLOYEE PRICING

Fenton Nissan East would like to thank all of our military customers for your past and future business! We appreciate your commitment to our country and would like to show our commitment to you. Right now, all military personnel are eligible for "Employee Pricing." That means you'll pay what any Fenton Nissan East employee pays! It's a small token of our appreciation for all of your tireless efforts. Please visit FentonNissanEast.com to schedule an appointment for this exclusive offer or just simply come by and see us. We're conveniently located within five minutes from Tinker Field. Thanks again, your hard work makes us all extremely proud!
